BrainStation | Diploma, User Experience Design

Jan 2023 - Apr 2023 / Vancouver, Canada

Simon Fraser University | Bachelors of Arts (SIAT Program)

Sep 2018 - Aug 2021 / Vancouver, Canada

Profile

I completed my studies in SFU's Interactive Arts and Technology program and fostered a keen interest in crafting immersive and intuitive experiences. Through my coursework and previous experience in the creative arts—namely, print production—I developed design, problem-solving, and user empathy skills.

Driven by a relentless pursuit of knowledge, I thrive in hands-on learning environments. This is precisely why UX design captivates me. I'm eager to channel my skills into creating products that not only reach thousands of users but also significantly enrich their lives.
